The new card will be updated in "real-time", meaning that when deposits are made to your account, your account is updated immediately. SUPERIOR FRAUD PROTECTION:

The EMV Chip-enabled Visa Debit Cards are provided by us and are printed instantly at our office. We have a great relationship with our card processor and they continue to provide excellent fraud protection for our members. This gives you piece of mind, knowing that purchase patterns are being watched by their automated system to alert them if high-risk purchases are being made or if strange activity occurs, so we may contact you.
